

Region 3 GPRA Baseline RCRA Corrective Action Facility

Sunoco, Inc.

**200 Neville Rd.,
Pittsburg, PA 15225
Congressional District
EPA ID #: PAD000824730
Last Updated: 06/30/2008**

Current Progress at the Site

On October 3, 2007, the Pennsylvania Department of Environmental Protection (PADEP) and PADEP's consultants conducted a site visit. The visit consisted of a site tour, and information gathering to assess the current status of the facility. EPA is evaluating the available information to determine if the Environmental Indicators, Current Human Exposures and Migration of Contaminated Groundwater, are under control.

Site Description

The Neville Island facility is located on the northeastern side of Neville Island at Mile Marker 5.3 along the Ohio River. The facility and barge unloading operation encompass 44.4 acres. The facility shares several paved drives with Ashland. The facility is bordered to the east/northeast by Shenango Incorporated. The backchannel of the Ohio River is directly south of the property and Davis Island lies to the southeast on the Ohio River.

On November 7, 1980, USEPA acknowledged the facility's Notification of Regulated Waste Activity and supplied the facility with USEPA ID# PAD000824730. On January 2, 1981, USEPA acknowledged notification of the Part A Permit application and accepted the information for initial qualification of interim status for a Hazardous Waste Permit

Site Responsibility

RCRA Corrective Action activities at this facility are being conducted under the direction of EPA Region 3 with assistance from the State.

Institutional Controls

To be determined.
